

CBAM emissions statement for a consignment

Statement CS-2026-0001 · issued 2026-10-01

SAMPLE: fictional plant and buyer. Not a real statement.

INSTALLATION (OPERATOR)

Operator	Demo Fasteners Pvt Ltd
Installation	Focal Point Plant (demo)
Address	Plot 0, Example Industrial Estate (fictional), Example Town, India
Coordinates	Not provided
Emissions data period	Calendar year 2026

EU IMPORTER

Buyer	Example Importer GmbH (fictional)
EORI number	DE0000000000000000

CONSIGNMENT

Invoice number	INV-2026-0042
Shipment date	2026-09-15
CN code	73181588
Goods	Hex bolts 8.8/10.9
Quantity	24 t

EMBEDDED EMISSIONS

Specific direct embedded emissions	2.64937 t CO ₂ e per t
Specific indirect embedded emissions	Not reported: for iron, steel, aluminium and hydrogen goods only direct emissions count
Embedded emissions in this consignment	63.585 t CO ₂ e (quantity x specific emissions)
Share based on EU default values	0% of the embedded emissions (precursors without supplier data)
Verification	Operator's calculation - not yet verified by an accredited CBAM verifier

Prepared with CBAM Exporter Pack from operator-supplied records. Figures are the operator's own calculation and are not verified. Under the CBAM definitive regime, actual embedded emissions may only be used by an EU declarant after verification by an accredited verifier.

The specific embedded emissions are those of the good as produced at this installation during the data period, calculated with the EU method for the CBAM definitive period (Commission Guidance Document 3). A verified figure, when available, replaces this one.
